

cppu::SocketBuffer

```
classDiagram
    class cppu_TCPConnection["cppu::TCPConnection"]
    class cppu_SocketBuffer["cppu::SocketBuffer"]
    cppu_TCPConnection --|> cppu_SocketBuffer
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'cppu::TCPConnection'. A blue arrow points vertically upwards from this box to a white box labeled 'cppu::SocketBuffer' at the top. This indicates that 'cppu::TCPConnection' inherits from 'cppu::SocketBuffer'.
